APPLICATION: CVHS Secure Wildlife and Agriculture Project

New Fencing Material Cost Estimator—Only list items that you need to purchase NEW.

Do not report existing, pre-owned materials. Total the estimated project costs, including tax. The CVHS Board of Directors can determine the Fencing Voucher dollar amount, based on your estimate. Remember, prices change month to month, so actual costs will change. If specific supplies you seek are not on the Estimator, attach a second sheet. **To quote your project costs, speak with the good folks at Haines Home Building Supply or Lutak Lumber.**

1. Is your fence installation Permanent or Seasonal (Circle one: Permanent /Seasonal)		
2. Number of New Posts: _____ Total length each post (ft) : _____		COST:
Anticipated distance between posts (ft): _____ Post Material: _____

9. Other required materials you need to purchase new specific to your fencing needs Attach sheet if required:		COST:
TOTAL Estimate Retail Cost of ALL NEW Materials needed to complete project (purchased in Haines at Lutak Lumber OR Haines Home Building—choose one):		TOTAL COST:

ATTEST:

I have reviewed all the above referenced Chilkat Valley Historical Society Secure Agriculture and Wildlife Project (SAWP) documents. My intentions are to install a fence for food-related, agricultural purposes that meet all SAWP criteria. My electric fencing design and plans are consistent with recommendations circulated by the Takshanuk Watershed Council and the Alaska Department of Fish and Game. My need for fencing is specific to improving my agricultural production and reduce the food conditioning of wild animals, including bears, and so they remain safe. I agree to hold harmless the Chilkat Valley Historical Society, all SAWP collaborating organizations and funders, for any damage or injury relating to the use and/ or installation of fencing materials purchased with project funds. My responses to all questions in this application are truthful and I anticipate my agricultural activities that require fencing will continue **for at least five years** in the intended location. **My compliant project will be installed and operational by August 1, 2022.**

SCALE DRAWING OF YOUR FENCING PROJECT:

After you have carefully drafted your ideas on scratch paper, use the space below, a pencil and straight-edge, to draft a clear, clean scale drawing of your fencing plan showing: scale, square footage, planned installations and improvements. Include garden beds, fruit trees, domestic animal enclosures, etc. PLEASE USE DARK LINES SO ALL YOUR PROJECT PARTICULARS WILL BE VIEWABLE WHEN SCANNED/COPIED.

If you need help with your drawing, or other aspects of the application, contact CVHS: info@chilkatvalleyhistoricalsociety.org Thank you!
